Industry Perspective

The business across the world today is converging very fast. In-fact every industry is now promoting business through multiple channels. All major brands and big retailers today is looking at different alternate channels like Direct Selling, On-line promotions, E-commerce etc. to optimize their business delivery.

Direct Selling is a time tested and cost effective way of promotion of quality products and services. This is the only industry which has year delivered a double digit growth (more than 10%) despite the odds in the Economic Cycle. With rough estimates globally this industry is doing a business of more than 5.25 lac crores per annum and approximately 50,00,000 (5 Lacs) people joining this business every week. Industry experts estimate that the growth will be more than 3 times in the next 10 years.

Driven by the fact that every thinking individual thrive for a better earning, better living and achievements in life, this industry has given millions of entrepreneurs and business leaders across the globe. However not everyone has been lucky. Lack of an Honest, Transparent and legitimate opportunity has lead to burning the aspiration and loss of faith and trust in the business.

The Constant Challenge For Success.

We are all challenged in the business world. We all want to be part of a team that leaves a legacy and is remembered for years on what we have accomplished. At Global Parivar, I am proud to be part of an excellent team that strives on reaching this success and greatness.

It starts with our Global Parivar –Management Philosophy:

Based upon its management philosophy, Global Parivar Group is committed to creating new and progressive approaches to its operations and services and contributing to the development of the customers.

AYURVEDA

The Ayurvedic approach to life involves listening to and addressing the unique needs of your body, recognizing and balancing your mental and emotional states and deepening your connection with your spirit your essential self. You are the only one who can do this, because you are the only one who will truly benefit from your actions or suffer from yours. In addition to above, we are looking to have few more renowned Ayurvedic doctors of India on our panel of consultants whose valuable advice and guidance help us to produce best quality products consistently. The term Ayurveda is composed of two Sanskrit roots Ayush meaning life & Vid meaning knowledge or science. This Science of Life originated in India over 5000 years ago, making it one of the world's oldest health care systems. It is not merely a health care system to treat ailments but a complete philosophy that encourages the pursuit of a healthy lifestyle. Ayurveda is known to be the 'Mother of all healing systems' as it predates all other healing therapies and natural medicines. Ayurveda can be seen as one of most visible faces of alternative medicines practiced throughout the world. AYURVEDA - THE NEW HEALTH MANTRA AYURVEDA is a form of age-old natural healing therapy. The word "Ayurveda" has its root in Sanskrit, meaning "life-knowledge". Tibetan, Chinese, Greek medicine to have adopted various remedies from it. It is a perfect amalgamation of time honoured and contemporary methods. Technology and our easy access to it today has made it quite trouble-free to buy Ayurvedic products online (window shopping has become so easy today!!!). So many Ayurvedic products are available in the market to solve all kind of issues ranging from the minor skin problems to other severe disorders. One can always buy natural ayurvedic range of products. portals as well. Few of many desirable categories are Healthcare, Body care, women care, baby care, Skincare. The main purpose of Ayurveda is to sync our internal environment first and then sync it with the external world. Ayurvedic specialists respect physical presence, mental presence, and identify it as a unit, with each component affecting the other. Ayurveda has eight approaches to analyze ailment, called Nadi, Mootra, Mala, Jihva, Shabda, Sparsha, Druk, and Aakruti. It helps us to maintain the balance of vaak, pitta and kapha in the body. The ongoing research that involves various related zone, is one of the evidence of how rapid is the growth of Ayurveda. So, why would anyone visit a doctor that frequent and pop in the not so needed medicines when Ayurveda comes in handy?!

OUR BODY

Before Knowing about the benefits of lifeon products let us know about how Human body works. Human beings are one of the wonderful creation of this nature. Our body is made up of various organs like stomach, liver, kindey, heart, brain etc. Every organs has its own function. All these organs are made up of cells. CELLS ARE THE SMALLEST FUNCTIONAL UNIT OF HUMAN BODY. These cells require proteins, carbohydrates, lipids, vitamins and oxygen, H2O etc to function properly. All these proteins, carbohydrates etc are supplied by the blood stream after absorbing it from the food we take and air we breathe. When these molecules or improper supply of these molecules to the cells will cause disorders in the body. Proteins are important for our body; proteins have many important functions in our body. Basically they give structure to our bones, hair, skin and the cell itself.

-They act as Hormones in our body, hormones are important for every action in our body.-proteins acts as enzymes, these enzymes are important for the chemical reactions like digestion of the food. In brief - Proteins are Life..... Activity of Xeronine and other Contents XERONINE: When we take lifeon, Proxeronine goes through our digestive system, get absorbed in the large Intestine, stored in the Liver then it combines with Proxeroninase and converted into Xeronine and distributed to all the organs. This XERONINE is very important for the proper functioning of many of the proteins in our body. Some of the important functions of XERONINE ARE

LIKE THIS: XERONINE combines with proteins and helps in maintaining the structure and rigidity of the proteins. XERONINE assist in enlargement of the pores on the cell membrane thereby allows large chain of amino acids and nutrients into the cell. XERONINE activates body enzymes and regulates the secretion. XERONINE converts brain proteins into active receptors sites for endorphin. XERONINE helps in proper opening and closing of the pores on the cell membrane. "As a result Weak cells or abnormal cells function properly"
